# Centralized Club Management System

## Our Team

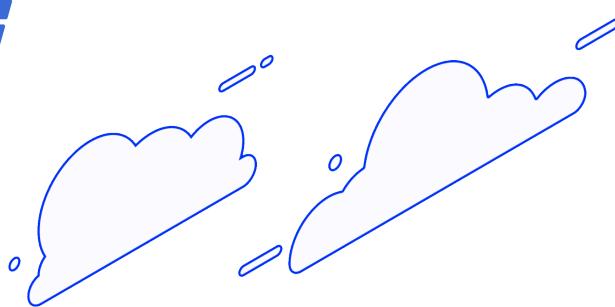

**Abdullah Al Noman**  
 ID : 232-35-003  
 Section : A

**Reduan Ahmad**  
 ID : 232-35-016  
 Section : A

**Monira Islam**  
 ID : 232-35-017  
 Section : A

## About Project

**At our university, student clubs organize events, activities, and memberships, but without a centralized database, managing them is difficult. Organizers struggle to keep track of members, event participation, and communication. To solve this, we propose a Centralized Club Management System .**

# FEASIBILITY STUDY
